major photography, minor sculpture

Experience

Baseline 05.07 - present

Web Application Designer - css3, html5, jQuery

I am the sole front end designer. Starting with client assessment through building interactive wireframes, while taking all the company products through transition from table-based layouts to css3 and html5 structures, including the internal database CMS. All products are subscription based, but my wireframes are available at www.roxstyle.com

101communications 09.00 - 05.2007

Web Art Director/Project Mngr. www.101com.com > www.1105media.com

Company changed hands in 2006, name changed to 1105 Media

I started in 2000 as the sole web designer. by 2007, I directed a team of 5 web standards designers, working with 7 programmers as a combined in-house web department. The last 3 years, our design team was able to migrate all company core sites from table-based layout to current best practices and standards for web, implementing a style guide and javascript library for the front end, across the sites.

I was personally responsible for markup, css, and design on:

<http://www.campustechnology.com>

<http://www.tdwi.org>

<http://www.esj.com>

along with all associated newsletter templates

<http://newsletters.roxstyle.com/tdwi/index.htm>

<http://newsletters.roxstyle.com/CampusTechnology/index.html>

While overseeing the design direction and style guide implementation across all sites.

EdenTree 09.06 - 12.06
